

2011 Annual Conference
April 30 & May 1 in Charlottesville

Saturday April 30

ACE Massage Cupping Level I Introduction

3 CE hours

Presented by Shannon Gilmartin

A wonderful ancient technique has found its place in the modern world of healing. Massage Cupping® therapy is a modified version of the common practice of cupping therapy, and the incredible results that this simple treatment produces have truly impressed those who have experienced its subtle power. By creating suction and negative pressure, Massage Cupping therapy is used to release rigid soft tissue, drain excess fluids and toxins, loosen adhesions and lift connective tissue, and bring blood flow to stagnant skin and muscles... **and it just feels great!** Massage Cupping is a versatile addition to any spa or private practice and complements many healing modalities, including massage therapy, chiropractic, spa therapies, physical therapy, nursing and estheticians. The method can easily be modified to accomplish a range of techniques, from lymphatic drainage to deep tissue release and trigger points. The equipment is easy to use and the therapy is fun and effective. This introductory workshop will spark your interest to learn this fascinating technique and incorporate it into your existing practice.

SHANNON GILMARTIN, CMT CMCE, has been a nationally certified massage therapist since 2001 and Certified Massage Cupping Educator since 2008. She is also one of the original educators. Following a successful private practice in her native Massachusetts, she relocated to Virginia Beach, Virginia. She incorporates many modalities into her signature interpretations of Massage Cupping therapy.

Class #1 Saturday, April 30

Exploring the Fascial Architecture of the Abdomen

12 CE hours—2-day class

Presented by Marty Ryan

This is a prerequisite for Class #2.

Participants will need loose-fitting clothes—shorts/tights/ sweats, T-shirts, sport bra

Some practitioners avoid the belly because they don't know what it "looks" like. This course teaches your hands to "see" the belly as never before. This class will examine the abdominal viscera layer by layer from skin to spine. This includes the bony framework of the abdomen, the belly wall, and the connective tissue structures that hold, wrap and support organs, blood vessels, lymphatics, and nerves. You will marvel at how the abdominal cavity is put together and how easy it is to touch many of the major abdominal and pelvic structures.

Class #2 Sunday, May 1

Applications to Acid Reflux (AM)

Applications to Dysmenorrhea (PM)

Continued from Day 1

Presented by Marty Ryan

AM class - Heartburn / acid reflux / GERD are all names for one of the most common digestive system complaints worldwide! Learn the anatomy and physiology of the esophagus and stomach, and how to easily change smooth muscle holding patterns in these tissues. Work in a layer-by-layer approach to mobilize the stomach and duodenum, decrease smooth muscle contracture along the entire GI tract, and optimize function for this important area of the body.

PM class - Start working right away with one of the most common challenges in women's health care. Learn manual therapy interventions in a layer-by-layer approach so your clients can enjoy their bellies and their lives! Increase confidence with palpating the uterus, ovaries, and related connective tissue structures.

MARTY RYAN has taught belly massage and palpatory anatomy seminars internationally since 1998. Marty is currently the Director of Love Your Guts Seminars, and has also served on the faculty of the Seattle Massage School and the Northwest Institute of Acupuncture and Oriental Medicine. His massage therapy practice currently

focuses on digestive and reproductive system optimization and post abdominal surgery rehabilitation. Marty has actively pursued his clinical treatment style through his full-time practice over the last 15 years. His classroom teaching style is often regarded as an open and fun learning environment where everyone has the opportunity to participate, learn and be heard.

Gender Ethics Saturday, April 30

3 CE hours

Presented by Tod Whitehurst

The root cause of many ethical dilemmas is based upon gender. We will explore the dynamics between men and women in a therapeutic bodywork setting. The differing needs, expectations, dilemmas, roles and boundaries will be examined. We will examine the NCBTMB Code of Ethics to see which relate to gender issues. Learn how our fears, anxieties and past experiences help shape our professional boundaries and cultural expectations.

TOD WHITEHURST is a nationally certified massage therapist and a member of the American Massage Therapy Association. He is former president of the Southwest Virginia Massage Therapist Association. He is a founding member of the Massage Associates of New River Valley. He is a Certified Laughing Yoga Instructor and the

founder of the Laughter Club of New River Valley. Tod is trained in a multitude of modalities, including medical massage, and his sessions consist of a set of combined deep therapies encompassing many different styles including a technique of his own called "Muscle Comforting." Tod is a faculty member of the Blue Ridge School of Massage and Yoga, where he teaches classes in hydrotherapy, workplace massage, sports massage, ethics and hot stone therapy.

Sunday, May 1

Introduction to Thai Massage

6 CE hours

Presented by David Roylance

Bring a notebook and something to write with. Wear loose-fitting yoga or exercise clothing.

This course introduces you to the philosophy of traditional Thai massage and multiple Thai massage techniques that can be enjoyed with friends, family or significant others for a nice body refresh/recharge. You will learn enough massage techniques to perform a 30-minute massage over the entire

body, and integrate them into your current massage routine. Students will have time to practice what they have learned one-on-one in a supportive environment. This class is excellent for couples, and for those interested in incorporating Thai massage into their current massage routine or exploring the wonderful culture/traditions of Thai healing.

DAVID ROYLANCE NCBTMB

Instructor, Certified Thai Massage Instructor, executive director of Thai Institute of Healing Arts, Official Seat of the Shivagakomarpaj Lineage in the USA ("Old Medicine Hospital") – Chiang Mai, Thailand. David L. Roylance is a dedicated instructor of Thai massage and the Thai healing arts. Living and working with Thais

since 2001, he's had a unique opportunity to understand the Thai culture, traditions, and healing arts through over a decade of constant immersion. He is the executive director of the only comprehensive Thai medical education, research, and treatment center outside of Thailand.

Laughter Yoga Saturday, April 30

Presented by Tod Whitehurst

Laughter Yoga combines unconditional laughter with yogic meditation. Unlike other forms of yoga, there are no poses. Anyone can laugh for no reason, without relying on humor or jokes. Laughter is simulated as a body exercise in a group and soon turns into real and contagious laughter. The concept of Laughter Yoga is based on a scientific fact: that the body cannot differentiate between fake and real laughter.
